

It's amazing to think that half time is already upon us when it seems like only yesterday that I was welcoming everybody back to school after the Easter break.

This week our reception children have taken part in Bikeability, learning how to use balance bikes safely. The instructor with extremely impressed with how well our children did.

It's been lovely to have so many children come to me this week with their completed reward cards. Our children really do behave and work incredibly well I think it's fantastic to be able to celebrate really positively amazing work ethics and character traits. Well done to everybody is completed their card so far and I look forward to seeing many others in the very near future.

Have a great half time break everybody we look forward to seeing you back on Monday 5th June for the last 7 weeks of the school year.

Mr Gareth Rust  
Head of School

## SEND 'Meet the Team'

### Events for Parents and Carers

#### Introduction

We are the Special Educational Needs and Disabilities (SEND) Team, and we offer support to schools and parents & carers so that they can help young people when they are experiencing difficulties in school and home life.

Following the success of our recent drop-in parent events, we are holding further meetings in June. Please note that this term meetings are at 10:30am – 11:30am. The local team look forward to meeting with parents and carers, finding out how we can provide guidance and help in supporting you and your child within your local area and just enjoying a coffee together.

Feedback from our last events show how much benefit families gained from these meetings.

- 'Talking about many different things, being pointed in the right direction'
- 'Meeting other parents, getting ideas from each other'
- 'Having the opportunity to share our worries and concerns and to be listened to - realising that we are not alone'

Following requests from those meetings, we have arranged for an Occupational Therapist to give a 10 minute talk at the next events:

- 'Identifying sensory self-regulation difficulties and Tips for the home'
