Additional Addition Challenges

Ben adds 12 to a number out of the box.

Which number does he choose from the box to make:

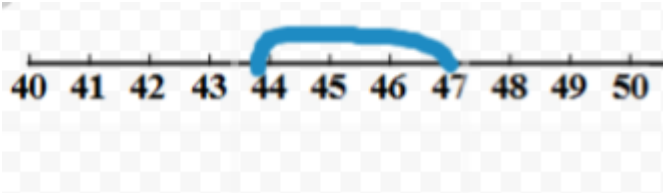
- 16 ?
- 14 ?
- 20 ?

2		4
	3	
8		2
	1	
5		7

I start with 11 and add a number. I finish with a number less than 19.

How many could Rob have added?

Spot the mistake



43 + 4 = 47
